### REMARKS

Reason for Plugging

**CEMENTER CERTIFICATION**

I certify that the cement plugs were placed in this well as shown on this report, per OCC instructions. The cementing was performed by me or under my direct supervision. I certify that all cementing data is true, correct and complete.

**OPERATOR CERTIFICATION**

I declare under applicable Corporation Commission rule, that I am authorized to make this certification, that I have knowledge of the well data and information presented herein, and that data and facts presented are true, correct, and complete to the best of my knowledge. This covers all well data and information presented herein.

**CORPORATION COMMISSION USE ONLY**

By signing this form, the District Manager has approved the contents thereof as to form only. Said District Manager does not warrant the facts provided by the operator are true or that the operator has properly plugged the described well.
FORM 1003/1003C

INSTRUCTIONS: Form 1003/1003C

1. Form must be completed in its entirety and mailed to the appropriate District Office (see below) within 30 days after plugging is completed.

2. Send original only.

3. Type or use BLACK ink only. This form is for record and must be legible.

4. API No. must be on form. To get an API No. use the OCC online Data Mining application or call the OCC Well Records Department at (405) 521-2275.

5. In specifying the type of plug use the following notations: (if other abbreviations are used, please define)
   - CIBP - cast iron bridge plug
   - CEM - cement plug
   - CIBP + CEM - cast iron bridge plug and cement
   - PKR - packer

6. Cement plugs shall be placed in the well bore as required by the Rules of the Commission plus any additional plugs as may be specified by the District Manager or his representative, where unusual local conditions exist. (OAC 165:10-11-6)

7. The minimum amount of cement normally used in each plug in the open hole shall be a slurry volume equal to the amount necessary to fill the calculated volume of 100 feet of the hole in which the plug is placed.

8. A minimum 30 foot cement plug is required to be placed in the top of the well. (OAC 165:10-11-6)
